 - Integrated microphone
- The camera is suitable for indoor
- Viewing angle 88,45° (diagonal)

Unifi Video camera G3:

- Full HD resolution (1080p)
- Poe supply (using data cable)
- integrated IR for night vision in distance up to 10 metres
 - Integrated microphone
- Suitable for indoor, for outdoor use
- Viewing angle 98,1° (diagonal)

IR Ranger Extender

- Available accessory for Unifi Video G3. IR range extender for night vision up to 25 metres

Unifi Video camera G3 Dome:

- Full HD resolution (1080p)
- PoE supply (using data cable)
- Integrated IR for night vision in distance up to 10 metres
- Integrated microphone
- The camera is suitable for indoor and can be installed at the suspended ceiling or wall
- Viewing angle 117,3° (diagonal)

Unifi Video camera:

- HD resolution (720p)
- PoE supply (using data cable)
- Integrated IR for night vision in distance up to 10 metres
- Integrated microphone
- Suitable for indoor, for outdoor use
- Viewing angle 64,33° (diagonal)

Unifi Video camera Dome:

- HD resolution (720p)
- PoE supply (using data cable)
- Integrated IR for night vision in distance up to 10 metres
- Integrated microphone
- The camera is suitable for indoor and can be installed at the suspended ceiling
- Viewing angle 98,2° (diagonal)

For connecting the cameras to the Internet connection we suggest using PoE switch, which ensures electric supply in the camera by using data cable, thus avoiding the necessity to install separate electric supply to each camera. The choice of any particular PoE switch depends from the necessary number of cameras and size of the object.
